

Update on the Board's activities

IFRS Conference
Nairobi, Kenya, August 2016

Darrel Scott, IASB Member
Hugh Shields, IASB Executive Technical Director

The views expressed in this presentation are those of the presenter, not necessarily those of the International Accounting Standards Board (the Board) or IFRS Foundation.

- 2015 Agenda consultation: our new approach to the work plan
- Better communication: a new theme
- *Conceptual Framework*
- Other major projects
- Implementation strategy
- Recently-issued IFRS Standards

2015 Agenda Consultation

Our new approach to the work plan

- The Board issued a Request for Views (RFV) on:
 - the balance of our activities, split between standard-setting, implementation support and research;
 - what research topics should be prioritised and how we should do that prioritisation;
 - whether we provide sufficient implementation support;
 - whether the pace of change to IFRS Standards is too high, too low, or about right.
- Links with the Trustees' RFV

- Received 119 comment letters; discussed in 30+ forums
- Focus on finishing insurance contracts and *Conceptual Framework*
 - we have already finished IFRS 16 *Leases*
- Focus on implementation activities, rather than standards-level projects. Important implementation activities include:
 - support for new and recently-issued Standards;
 - maintenance activities; and
 - post-implementation reviews.
- Most respondents support our evidence-based approach

Information that is useful to investors

6

- Another key message was the importance of providing information that is useful to investors
- Projects that are important to investors were identified as high priority by many respondents:
 - primary financial statements
 - principles of disclosure
- Better communication is a central theme for the coming years

- Many respondents requested a stable platform:
 - because change is a burden on all, especially small entities;
 - to enable preparers to develop and enhance their reporting processes and systems;
 - to allow stakeholders to implement new Standards.
- The level of change that will be required to implement IFRS 9 *Financial Instruments*, IFRS 15 *Revenue from Contract with Customers* and IFRS 16 *Leases* will be considerable
- Limitations on stakeholders' capacity for change is a key constraint on the Board's activities
 - including 'outreach fatigue'

- The Trustees ratified extending the interval to 5 years
 - hence, the work plan is for 2017-2021
- Switch away from transaction-specific Standards-level projects to place more emphasis on:
 - better communication in financial statements;
 - Implementation, and the support of consistent application;
 - standard-setting that builds on the revised *Conceptual Framework* and enhances consistency between Standards;
 - a realistic, achievable research programme.
- The research programme has become more focussed
- Work plan on web site since late July, feedback statement due late October

Active research projects

9

- Projects that result in better communication in financial statements will be a central theme in the forecast period
- The other active research projects will be carried out in a more timely manner:
 - business combinations under common control
 - dynamic risk management
 - financial instruments with characteristics of equity
 - goodwill and impairment

- The Board has also identified a pipeline of research projects that will be carried out later in the period 2017-2021
 - equity method for associates and joint ventures
 - extractive activities
 - pollutant pricing mechanisms
 - provisions
 - variable and contingent consideration
- The pipeline also includes feasibility studies on:
 - high inflation, rather than hyperinflation (scope of IAS 29)
 - pensions: benefits that depend on asset returns
 - SMEs that are subsidiaries

- The aim of the research programme is to gather evidence to establish whether
 - a problem exists
 - it causes problems in practice
 - a feasible solution can be identified
- The research programme is intended to feed manageable projects into the Standards-level work plan on a timely basis

2015 Agenda consultation: Completed topics

12

- The Board completed its assessment of these research topics before the RFV was issued:
 - foreign currency translation
 - high inflation
- The following topics will be completed before the end of 2016:
 - share-based payment
 - discount rates

2015 Agenda consultation:

Topics removed from the work plan

13

- The topics removed from the Board's work plan as a result of messages received were:
 - income taxes
 - intangible assets and R&D
 - post-employment benefits (except pension benefits that depend on asset returns)
- Topics proposed by respondents, but not included in the draft work plan, include collaborative arrangements, general principles for separate financial statements or for combined financial statements, a review of government grants and non-reciprocal transactions

Better communication

A new theme

- Our theme of *Better Communication* in financial reporting will include our work on:
 - primary financial statements
 - the disclosure initiative, including principles of disclosure
 - the IFRS Taxonomy™
 - materiality
- The scope of some of these projects, such as primary financial statements, is still being developed. Other topics, such as materiality, are more advanced.

Primary Financial Statements

Statement of
financial
performance

- ✓ Consider structure and content including line items, subtotals and alternative performance measures

- ✗ Will not define a single measure of performance

Statement of
cash flows

- ✓ Explore need for improvements to structure and content
- ✓ Consider interaction between primary financial statements

Statement of
financial
position

Statement of
changes in
equity

- ✗ Consider as part of Financial Instruments with Characteristics of Equity project

Why

- Requests for the Board to develop presentation and disclosure principles that apply across IFRS Standards.
- Purpose is to:
 - help the Board set better disclosure requirements; and
 - enable preparers to make better judgements about disclosures.

Output

- Discussion Paper
 - covers overall principles and specific issues.
 - ultimate goal is to produce:
 - the basis for a new or revised general disclosure Standard for preparers (IAS 1, currently);
 - drafting guidance for the Board for its internal use in setting disclosure requirements.

IFRS Taxonomy: Areas of focus

18

IFRS Taxonomy content

- Publication of *Annual IFRS Taxonomy 2016* and three IFRS Taxonomy Updates

Governance

- Finalisation of the revised IFRS Taxonomy due process

Adoption and implementation

- IFRS filing profiles and outreach
- Management of entity-specific disclosures

Educational and supporting materials

- *Guide to IFRS Taxonomy common practice content*
- Enhancements to the IFRS Taxonomy Illustrated

Trustees' review

- Strategy relating to the IFRS Taxonomy and wider impact of technology upon the relevance of the IFRS Standards

Other topics:	
Materiality	<p>Part of the disclosure initiative</p> <p>The object of this project is to help preparers, auditors and regulators to use judgment when applying the concept of materiality</p>
Standards-level review of disclosures	<p>Scope of review will be determined once we have received feedback on the Principles of Disclosure Discussion Paper</p>

Conceptual Framework

What is the *Conceptual Framework*?

21

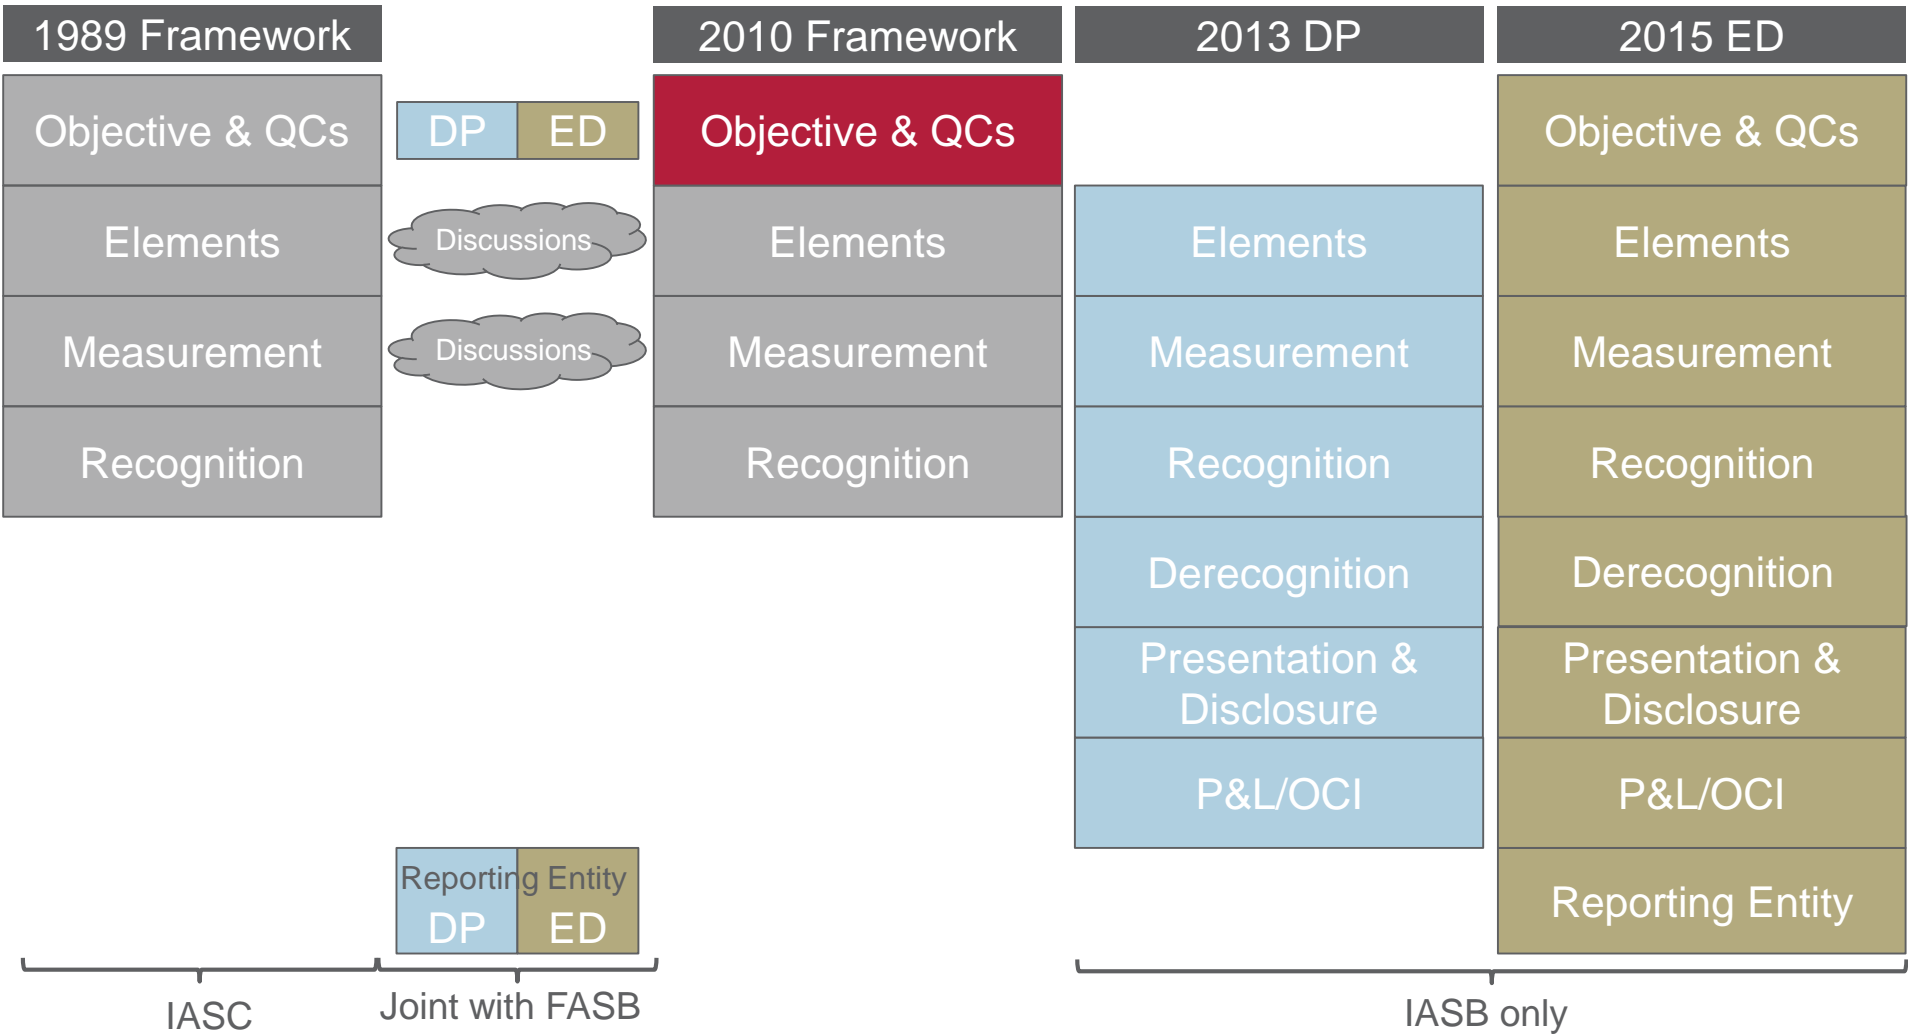

- The *Conceptual Framework* is a set of concepts that can assist:
 - the Board when developing or revising IFRS Standards
 - preparers to develop accounting policies
 - others to understand and interpret IFRS Standards
- Not a Standard – does not override any IFRS Standard

- Why?
 - Existing *Conceptual Framework* has helped in developing, revising and understanding IFRS Standards. However, some areas were missing, unclear or out of date
- Agenda Consultation
 - Priority project
- Scope of the *Conceptual Framework* project
 - Focus on problems in the real world
 - Update, improve and fill in gaps
 - No fundamental rethink but resuming previous work

Background

Conceptual Framework timeline

Timeline

24

Other major projects

The new insurance contracts Standard

26

Status

- Board completed planned technical discussions
- Publication targeted for around the end of 2016

Expected effect of Standard

Improved quality

(relevance and transparency)

- Information about:
 - the effect of insurance contracts on financial performance
 - sources of profits or losses through underwriting activity and investing premiums from customers
 - the nature and extent of risks from insurance contracts

Improved comparability

- Easier to make comparisons between insurance contracts and other types of contracts
- Replaces huge variety of accounting treatments that depend on type of contract and type of company that issues the contracts

Status

- Publication targeted for mid-September

Expected effect of amendments

- Introduced to address concerns about the **different effective dates** of IFRS 9 and the new insurance contracts Standard.
- Two approaches

A temporary exemption from applying IFRS 9

- Option available for reporting entities whose activities are predominantly connected with insurance
- Optional temporary exemption from applying IFRS 9 until 2021 (will continue to apply IAS 39)
- Only for a limited period

An overlay approach

- Option available to all entities issuing IFRS 4 contracts and applying IFRS 9
- Allows reclassification of incremental volatility that arises when IFRS 9 is applied with IFRS 4, between P&L and OCI

- Discussion Paper published in 2014
 - outlined the Portfolio Revaluation Approach, which aims to better reflect risk management of open portfolios in entities
 - comment letter analysis highlighted significant diversity in views on project objectives among stakeholders
- In May 2016, the Board considered the comments received on its 2015 Agenda Consultation
 - approximately half of those who commented considered the project to be important, whilst approximately one third of those who commented considered it unimportant
- European Financial Reporting Advisory Group is currently conducting outreach to better understand the key drivers in banks' Core Demand Deposit modelling. The IASB staff is participating in this process as observers.

- Status: Developing an accounting model to be consulted on
- Except for a limited-scope temporary Standard, rate-regulated activities are not addressed specifically in IFRS Standards
- Interim relief for first-time adopters of IFRS
 - issued IFRS 14 *Regulatory Deferral Accounts* in Jan 2014
 - permits grandfathering of previous GAAP accounting practices
 - enhanced presentation and disclosure matters
- Current project
 - Discussion Paper published September 2014
 - support for recognising some regulatory deferral account balances, focusing on a revenue-based approach

Financial instruments with characteristics of equity

30

- Investigating potential improvements to:
 - classification of liabilities and equity in IAS 32
 - definitions of liability and equity in the *Conceptual Framework*
 - presentation and disclosure requirements, for instruments that have characteristics of both liabilities and equity
- Future discussions will include:
 - derivatives and compound instruments
 - conditional alternative settlement outcomes
 - improvements to disclosures
- Next step is likely to be a Discussion Paper

Implementation

Two areas of activities:

- Support for newly-issued Standards
 - eg leases educational webcasts
- Focus of education activities
 - to support consistent application
 - education materials available on IASB website
 - eg IFRS for SMEs Standard
 - fair value measurement
 - webcasts
- Relationships with others involved in the application of IFRS Standards
 - to foster consistent application
 - eg regulators, NSS, auditors

Maintenance of existing Standards

34

- Maintenance is the responsibility of the Board and the IFRS Interpretations Committee
- Various forms:
 - IFRS Interpretations
 - narrow-scope amendments
 - annual improvements
 - agenda decisions
- Post-implementation reviews

Post-implementation reviews (PIRs)

35

- The Board reviews each new Standard or major amendment
- Assess the effect of new requirements on investors, preparers and auditors
 - seek input from investors, preparers, auditors, and securities regulators
 - conduct review of academic studies on the Standard
- Timing of the review — after new requirements have been applied globally for 2 years
- The review phase completed for IFRS 8 *Operating Segments* and IFRS 3 *Business Combination*
- PIRs planned for IFRSs 10-12 (consolidation topics), IFRS 13 (fair value) and IFRS 5 (discontinued operations)

Recently-issued IFRS Standards

Recent IFRS Standards

37

Major Projects	Effective date
IFRS 9 <i>Financial Instruments</i>	1 January 2018
IFRS 15 <i>Revenue from Contracts with Customers</i>	1 January 2018
IFRS 16 <i>Leases</i>	1 January 2019
2015 Amendments to the <i>IFRS for SMEs Standard</i>	1 January 2017

Recent IFRS Standards (2)

38

Narrow-scope amendments	Effective date
<i>Recognition of Deferred Tax Assets for Unrealised Losses</i> (Amendments to IAS 12)	1 January 2017
<i>Disclosure Initiative</i> (Amendments to IAS 7)	1 January 2017
<i>Clarifications to IFRS 15 Revenue from Contracts with Customers</i>	1 January 2018

Recently-effective IFRS Standards

39

	Effective date
IFRS 14 <i>Regulatory Deferral Accounts</i>	1 January 2016
Accounting for Acquisitions of Interests in Joint Operations <i>(Amendments to IFRS 11)</i>	1 January 2016
Clarification of Acceptable Methods of Depreciation and Amortisation <i>(Amendments to IAS 16 and IAS 38)</i>	1 January 2016
Agriculture: Bearer Plants <i>(Amendments to IAS 16 and IAS 41)</i>	1 January 2016
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <i>(Amendments to IFRS 10 and IAS 28)</i>	1 January 2016
Equity Method in Separate Financial Statements <i>(Amendments to IAS 27)</i>	1 January 2016
Annual Improvements 2012-2014 <i>(IFRS 5, 7 and IAS 19, 34)</i>	1 January 2016
Investment Entities: Applying the Consolidation Exception <i>(Amendments to IFRS 10, 12 and IAS 28)</i>	1 January 2016
Disclosure Initiative <i>(Amendments to IAS 1)</i>	1 January 2016

- Final version of IFRS 9 *Financial Instruments* issued July 2014
 - replaces previous versions of IFRS 9
 - brings together classification & measurement, impairment and hedge accounting phases of the Board's project to replace IAS 39
- Mandatory effective date - 1 January 2018 with early application permitted

- Classification and measurement
 - a logical, single classification approach for financial assets driven by cash flow characteristics and business model
 - improvements to own credit
- Hedge accounting
 - an improved and widely welcomed model that better aligns accounting with risk management
- Impairment
 - strongly supported forward-looking 'expected loss' model
 - a significant change in accounting
 - Transition Resource Group (ITG) has provided support on implementation of new requirements

- IFRS 15 *Revenue from Contracts with Customers* issued with the FASB in May 2014
- Joint Revenue Transition Resource Group (<http://go.ifrs.org/RTRG>)
- *Clarifications to IFRS 15* issued by the IASB April 2016
- IFRS 15, together with clarifications, effective from 1 January 2018
- No further planned amendments
 - IASB not planning TRG discussions-monitor questions and submissions
- IFRS 15 implementation support (<http://go.ifrs.org/IFRS-implementation>)

- IFRS 16 *Leases* issued in January 2016
- Effective date of 1 January 2019
- Main features:
 - Lessee:
 - All leases on-balance sheet¹,
 - Depreciation and interest presented separately in income statement
 - Lessor: little change to existing accounting
- IFRS 16 implementation webpage

¹ Except for short-term leases and leases of low-value assets

The IFRS for SMEs Standard

44

- *IFRS for SMEs* published July 2009
- Amendments issued in May 2015 from initial comprehensive review
 - limited changes made after considering feedback and importance of stability during the early years of implementation
 - few significant new issues identified
 - limited areas where targeted improvements made
- Next steps:
 - the next comprehensive review is expected to begin in 2019
 - the Board will decide later this year whether to perform an interim review
