SUITABILITY FOR COUNCIL ELECTION

- o Have been in good standing since 2001 and ready to continue
- o Totally committed to taking the institute to the next level
- o Willing to commit more time and effort in furtherance of the institute's interest

My promise

❖ Good Leadership and Governance

Under my leadership, principles of good governance shall be appropriately adhered to. More specifically, stakeholders 'participation and equitable distribution of ICPAK produce shall prevail.

❖ Ensuring relevant training to members

The new constitution embraces the spirit of the constitution and thus accountants must be seen to be at the forefront to ensure that a majority of Kenyan benefit from the devolution.

Young upcoming accountants need to be trained on matters touching on devolution. That I shall ensure.

❖ Welfare for senior Citizen Accountants

Apart from the benevolent fund, it has always been in my mind that as accountants grow old, they will need a regular income. a pension fund need to be created where they will be earning some allowances , this way we make ICPAK an investment base .

❖ Creation of a research Centre at ICPAK

We have been training our children for quite some time now but epitome of training is research. I strongly believe that a create can be created at ICPAK for the benefit of our members, the public and the institute. The Centre can as well become an income generating unit to avoid overreliance on members' subscriptions.

Members are requested to give vote in CPA Livingstone thus giving him a chance to demonstrate the practical aspects of good leadership and Governance geared to place ICPAK where it appropriately belongs.

LONG LIVE ICPAK.
