

Master of Science in Development Finance

...developing people and institutions

This programme will equip you with the expertise to turn ideas into financially sound, long-term development solutions that improve lives, uplift communities and place Africa on the global stage. You will gain skills to manage development finance, as well as design, implement, and evaluate development programs that support sustainability of the development.

Who can join?

Professionals working or aspiring to work in (micro) finance service institutions; international organizations such as the UN and international financial institutions such as the World Bank Group or the African Development Bank; central bank or financial regulator; NGOs and private sector organizations. It is also recommended for those involved in policy formulation and implementation, or those interested in pursuing a career in development finance.

Entry qualifications

Bachelor's degree in Economics, Commerce, Accounting, or Finance (with good quantitative background) or a non-finance related discipline with at least 3 years' experience in finance related work

Duration: 2 years (five trimesters)

Class size: 30 students
(15 spaces remaining)
