How to determine taxable value of some non-cash benefit is outlined in the ITA e.g. car, housing.

Taxable value of those not specifically provided for is the higher of actual cost to the employer and the fair market value.
The Commissioner may prescribe the value where the cost or the fair market value of a benefit cannot be determined.

- Provision of furniture – 1% of the cost of furniture to employer.
- Telephone (landline and mobile phone) – 30% of bills.
- Electricity (communal or from generator) – KShs. 1,500 p.m.
- Water (communal or from borehole) – KShs. 500 p.m.
Taxation on non-cash benefit – Motor vehicle

Company car taxed at the higher of 2% p.m. of the initial cost of the car or Commissioner’s prescribed rates. S. 5 (2B)

W.e.f.1.1.2008, employees who have restricted use of motor vehicles, the Commissioner may determine a lower rate of the benefit depending on the usage of the vehicle upon proof. S.5 (2B)

Hired or leased car - the taxable benefit is the lease or hiring cost. S.5 (2B) (a) (ii)
Employer pays rent under an agreement at arm’s length, value of the benefit is the higher of:-
- 15% of gross emoluments (excluding the value of the house), or actual cost to the employer.

Employer pays rent under an agreement not at arm’s length, value of the benefit is the higher of the fair market value of the premises for that year or rent paid by employer.

Premises are owned by the employer, the value of the benefit is the fair market rental value.
Taxation on non-cash benefits – Group life cover

Employer pays a premium for an insurance on the life of his employee and for the benefit of the employee or his dependants - taxable unless;

- The amount is paid to a registered or unregistered pension scheme, pension fund, provident fund or individual retirement fund;

- The cover confers a benefit to the employer.
Taxation of terminal benefits

- An amount received in respect of employment in a year of income different from the year of accrual, such income is deemed to be income of the year of accrual.

- If the year of accrual is earlier than 4 years prior to the year of receipt, the income is spread back over 5 years prior to the year in which the income is received or employment ceased.
Taxation of terminal benefits

- The *service gratuity* amount is to be *spread backwards* and taxed together with income earned in the relevant years.

- *Notice pay* is assessable in the period immediately after date of leaving employment.

- *Pay in lieu of leave* should be taxed in the year to which the leave days relate.
Taxation of terminal benefits

- Where there is a specified term contract, the amount of the compensation will be spread over the unexpired period at equal amounts and taxed accordingly.

- 5 year contract terminated after 3 years. Compensation is Kshs. 1,000,000.
Taxation of terminal benefits

- Where the contract is for *unspecified term* and provides for *terminal payment*, then the compensation will be *spread forward* and assessed at the rate of the *employee’s remuneration* p.a. immediately before termination.

- Terminal payment is Kshs. 5,000,000, employee’s remuneration prior to termination was Kshs. 1,000,000 p.a.
Where the contract is for unspecified term and does not provide for terminal payment, the compensation is to be spread forward in equal amounts for three years following the termination.
Contributions to registered pension, provident, individual retirement schemes allowable amount is the lesser of:

- 30% of pensionable pay;
- KShs.20,000 p.m.;
- Actual contributions.

Contributions by employers who are not taxable to unregistered schemes or excess contributions to registered schemes are a taxable benefit on employee. S.5 (4) (c)

- The employer has evidence that the approved Institution is registered by the Commissioner.

Withholding tax rates under double tax treaties

Other considerations in applying treaty:-

- 50% or more of the underlying ownership of the entity receiving payment should be held by an individual or individuals who are residents of the other contracting state.
- company listed in a stock exchange in that other contracting state

Where the treaty rate is higher than the non-treaty rate, the lower rate applies.
Exemptions from withholding tax

- Where recipient of the income is exempted from tax and has furnished the paying entity with valid exemption certificates.

- Where the Cabinet Secretary certifies that a payment is required to be paid free of tax by the terms of an agreement to which the Government is a party either as principal or guarantor and that it is in the public interest that the income shall be exempt from tax (Para 11 of 1st Sch. and Sec. 13 of ITA).
Exemptions from withholding tax

- Where the supplier is exempt from tax under the 1st Schedule to the ITA.

- Where the payment is not eligible for withholding tax purposes, for instance, payment for water supplied.

- Instances where there is a double tax treaty or Host Country Agreements exempting tax deduction on specific items.
Exemptions from withholding tax

Exempt payments W.e.f 12 June 2009

- a commission paid to a non-resident agent in respect of flowers, fruits or vegetables exported from Kenya and auctioned in any market outside Kenya; and

- audit fees for analysis of maximum residue limits paid to a non-resident laboratory or auditor.
Tax planning around withholding tax

- Utilization of double tax treaties.
- Contracts should be negotiated gross of taxes.
Consequence of non-compliance

- Penalty – 10% of the tax due subject to a maximum of Kshs. 1,000,000.

- Interest – 1% per month subject to a maximum of the principal tax payable.

- Withholding tax not withheld becomes the payer’s responsibility.
