BEPS & PE

BEPS Action Plan 7

- ❑ Tackles common tax avoidance strategies used to prevent the existence of a PE, including through agency or commissionaire arrangements instead of establishing related distributors.
- ❑ prevent the misuse of specific exceptions to the PE definition, which relate to activities of a preparatory and auxiliary character.

Specific activity exemptions	<ul style="list-style-type: none">❑ PE is deemed not to exist when a place of business is engaged solely in certain activities (such as maintenance of stocks of goods for storage, display, delivery or processing, purchasing of goods or merchandise, collection of information)❑ To safe guard abuse this has been limited to activities of a preparatory or auxiliary nature only

- ❑ **Preparatory:** carried on in contemplation of “essential and significant part of the activity as a whole”

Agency PE Scenario

Fragmentation of functions

Attribution of Profit

- ❑ Paragraph 19 ...changes in definition “*do not require substantive modifications to the existing rules and guidance concerning the attribution of profits to a PE under Article 7 [of the MTC], but ... there is a need for additional guidance on how the rules of Article 7 would apply to PEs resulting from the changes in this report*”
- ❑ **Approaches used**
 - ❑ Force of Attraction Rule - going beyond profits derived by PE
 - ❑ Authorised OECD Approach – 2 step approach functional and factual analysis (performing comparability analysis) and performing an hypothesis appropriately (PE treated as functionally separate)

Attribution of Profit

- ❑ Under Article 7 of the MTC, the profits to be attributed to a PE are those that the PE would have derived if it were a separate and independent enterprise performing the activities that cause it to be a PE

For Instance

- ❑ **Art. 5(4.1)** The profits attributable to each PE so arising are those that would have been derived from the profits made by each activity of the cohesive business operation as carried on by the PE if it were a separate and independent enterprise performing the corresponding activities, taking into account in particular the potential effect on those profits of the level of integration of these activities.
