**Annual Financial Management Conference for
NPOs**

Innovating for Results and Accountability

People, purpose

Purpose
before
Profits

Reputation
before
Revenue

Purposeful
business is the
successful
business.

Simple • Transparent • Honest

FOR YOU

Technology for Development (T4D)

What we do

The T4D team designs, co-creates or develops products and services that deliver social impact in health, education, agriculture and other areas aligned to the SDGs.

We incubate products and services to demonstrate both the social impact and commercial viability and then scale them through the relevant business units.

Our Partners

We build partnerships that bring together resources, expertise, and vision—working with like minded organizations around the globe to identify issues, find answers, and drive change.

We work with government, NGO, Hubs, Innovation hubs and Internal Business Units

What our products look like

They create value which accrues to society

They are scalable, life enhancing mobile services with maximum social and economic impact

Focus Areas

Agriculture
Health
Education
Energy
Disaster Management
Diversity and Inclusion

Success so far

Highlights Key innovations and success to date which we incubated and transitioned to business units

Customer Centric Health
finance Platform that
integrates payments
hence revolutionizing
health schemes hence
driving health care
inclusion

Leveraging on
Technology to enable
small scale farmers
become wealthier
resulting in sustained
food security

- 1 M Farmers Registered
- 118 Depots in 12 counties
- 260K Active learners

Fertilizer E-Subsidy

Improve the inputs
delivery systems in Kenya
so as to be more efficient
and effective in reaching
small holder farmers

TIBU

Patient and Cash transfer
Solution for national TB
Programme

Kilimo Salama

Weather index Insurance
Over 500K Farmers
impacted

Improving quality of
Education through digital
Technology

Our Future

Mobile remain the only single tool that cuts across geographies. **It is everything and remains the most reliable infrastructure for inclusion.** Power of mobile is enabling **ACCESS**. Africa has more mobile phones than available basic utilities such as Water and Sanitations, electricity etc.

We will strive pursue opportunities, incubate in focus areas which :

- Helping Farmers increase Yields, efficiency and access to mkt
- Provision of secure Financial Transactions
- Telehealth, Authentication, EMR/
- Pay as you Go Utility Solutions
- Identification Solutions- NUPI
- Digital Literacy, m-Learning
- Disaster Response, Disease Surveillance

Data for Good

- Bringing the data and analytics to critical social issues thus developing unique insights and interventions

Harness the power of mobile technology to accelerate implementation of SDGs

Thank You
